DESCRIPTION

Colloidal Oatmeal Coated Nitrile Exam Gloves COATS® (an acronym for Colloidal Oatmeal System) is a patented and unique nitrile glove technology. COATS® utilises the powerful benefits of all-natural oats, an FDA-recognised skin protectant, as a coating that forms a natural, moisturising barrier between the glove and skin. This acts as a preventative measure against skin irritation, and eliminates uncomfortable and irritating conditions experienced when wearing normal gloves. Users who suffer from dry and itchy skin due to frequent hand washing and glove usage can now rely on COATS® to soothe and nurture the skin, and protect their hands while they work.

FEATURES

Material	Nitrile
Type	Medical Examination
Sterile	No
Powder Free	Yes
Latex Free	Yes
Beaded Cuff	Standard
Ambidextrous	Yes
Colour	Blue
Outer Surface	Finger Textured
Length	≥ 230 mm
Weight (M)	3.5g ± 0.2g
Single Wall	Yes
Thickness - Palm	0.07 ± 0.02 mm
Thickness - Fingers	0.09 ± 0.02 mm
Sizes	S / M / L / XL
